

Intersurgical EcoLite™ range

Comfortable for the patient
Comfortable for the environment

Greener ▪ Lighter ▪ More Comfortable

Intersurgical EcoLite™ the lightest and most comfortable range of oxygen and aerosol masks

The Intersurgical EcoLite range of oxygen and aerosol therapy products is an important part of the Eco range  designed as part of our ongoing focus on sustainable development.

Improved patient comfort has been key to the ongoing development of the range. The latest manufacturing technology has enabled us to combine two non-PVC materials in the same product, the polypropylene material forming the body of the Intersurgical EcoLite mask is clear, lightweight and rigid enough to maintain the mask's shape, whilst the second softer TPE material is utilised in the seal, which is in contact with the patient's face.

The use of these materials and the unique design of the masks have resulted in a range of oxygen and aerosol therapy products which provide improved patient comfort and a reduced environmental impact. ¹²³⁴⁵

All of the Intersurgical EcoLite face masks share the following key features and benefits:

- Soft chin, nose and side seals ensure exceptional levels of patient comfort
- Lighter than PVC masks, more comfortable for the patient
- Incurved nose seal eliminates the need for a separate nose clip, designed to prevent oxygen and aerosolised drugs entering the patient's eyes
- MRI compatible
- Lower environmental impact

In addition the following features and benefits are product specific:

Adult oxygen and aerosol masks

- 50% lighter than a PVC mask, which is more comfortable for the patient
- 69% reduction in environmental impact

Paediatric oxygen and aerosol

Incurved nose seal

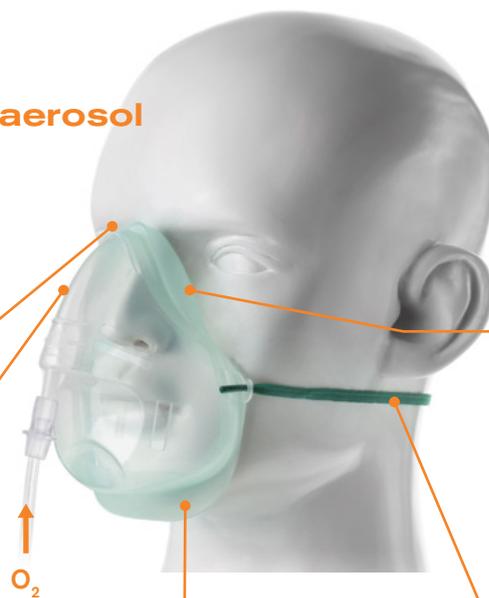

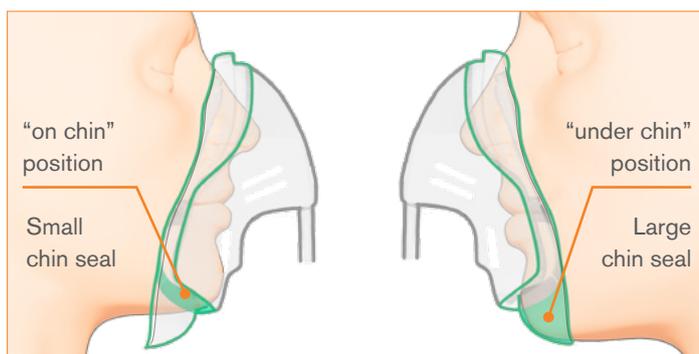

Improving the fit and eliminating the need for a separate nose clip. Designed to prevent oxygen or aerosolised drugs entering the patient's eyes

No metal nose clip

MRI compatible

A choice of "under chin" or "on chin" positions

Provides a better fit on a wider range of patient face shapes

Soft face seals
Increased patient comfort

Elastic can be positioned under or over the ears
Below ear position eliminates trauma to top of ears

In the preferred "below the ears" position it eliminates the discomfort and trauma that can result from long-term use

Code	Description	Tube length	Box Qty.
1136015	Intersurgical EcoLite, adult, medium concentration oxygen mask	N/A	55 
1135015	Intersurgical EcoLite, adult, medium concentration oxygen mask with tube	2.1m	40 

Sentri™ ETCO₂ mask

The Sentri mask is an adult, medium concentration Intersurgical EcoLite oxygen mask with a luer lock connector enabling the connection of a monitoring line, the other end of which is connected to a capnometer. The Sentri mask is used for measuring end-tidal CO₂ (ETCO₂) in expired gases while supplying oxygen to the patient.

Code	Description	Tube length	Box Qty.
1142015	Sentri Intersurgical EcoLite, adult, mask with CO ₂ monitoring line and tube	2.1m	30 
1143015	Sentri Intersurgical EcoLite, adult, mask with CO ₂ monitoring line, filter and tube	2.1m	30 

FiltaMask™

The FiltaMask combines an oxygen delivery system with a filter media covering the exhalation ports. FiltaMask is intended for use on patients who may be a source of aerosolised infectious pathogens and who also require supplementary oxygen.

Code	Description	Box Qty.
1188015	Intersurgical EcoLite, adult, aerosol mask	50 
1453015	Cirrus™2 nebuliser, adult, Intersurgical EcoLite mask kit and tube, 2.1m	30 
1463015	HOT Top™2 nebuliser, adult, Intersurgical EcoLite mask kit with tube, 1.8m	30 

Venturi valve mask kits

These kits incorporate the Intersurgical EcoLite aerosol mask providing an unprecedented level of comfort and a reduced environmental impact.

Make an enquiry

Code	Description	Box Qty.
 1060085	Intersurgical EcoLite, adult, aerosol mask with 60% venturi valve, green	40 
 1040085	Intersurgical EcoLite, adult, aerosol mask with 40% venturi valve, red	40 
 1035085	Intersurgical EcoLite, adult, aerosol mask with 35% venturi valve, yellow	40 
 1031085	Intersurgical EcoLite, adult, aerosol mask with 31% venturi valve, orange	40 
 1028085	Intersurgical EcoLite, adult, aerosol mask with 28% venturi valve, white	40 
 1024085	Intersurgical EcoLite, adult, aerosol mask with 24% venturi valve, blue	40 

Adult mask venturi kit

A complete kit comprised of five venturi valves, an adult Intersurgical EcoLite aerosol mask, oxygen tube and humidification cup. The flow printed on the valves ensures that the patient receives a total flow of approximately 40 L/ min. This is designed to meet the patient's 'normal' peak flow requirements.

1107085	Intersurgical EcoLite, adult, venturi mask kit	25 

Adult high concentration oxygen mask

- Two integral chin seals ensure that the mask fits a wider range of face shapes
- These design features combine to provide an improved seal on the patient's face, which in turn, results in higher oxygen concentrations as less ambient air enters the mask
- Low resistance safety valves allow the patient to breathe air should the oxygen supply fail or be inadequate to meet peak flow requirements

The Intersurgical EcoLite™ high concentration mask can provide oxygen concentrations greater than 80%, at flows of 10–15 L/min (these values are approximate and depend on the patient's breathing pattern).

Incurved nose seal

Improving the fit and eliminating the need for a separate nose clip. Designed to prevent oxygen entering the patient's eyes

No metal nose clip

MRI compatible

Two integrated safety valves

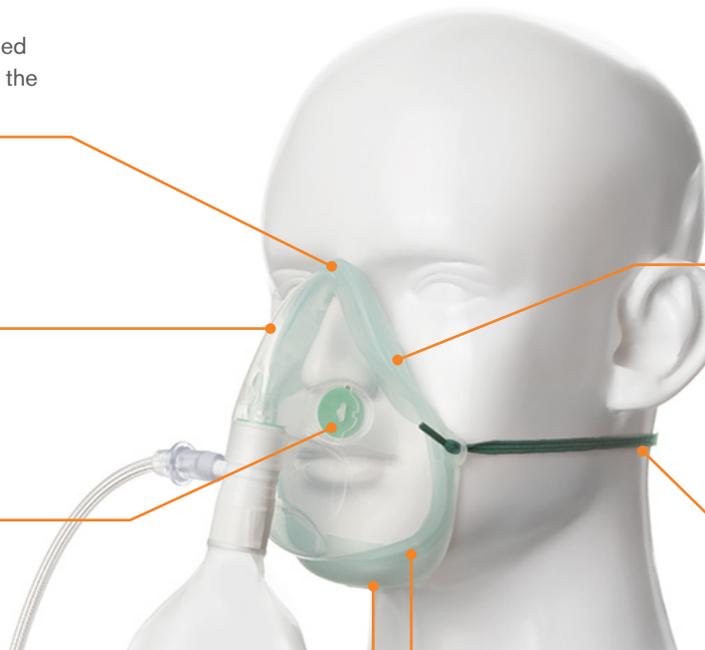

Allows patient to breathe room air in the event oxygen supply failure

Soft face seals

Increased patient comfort

Elastic can be positioned under or over the ears

Below ear position eliminates trauma to top of ears

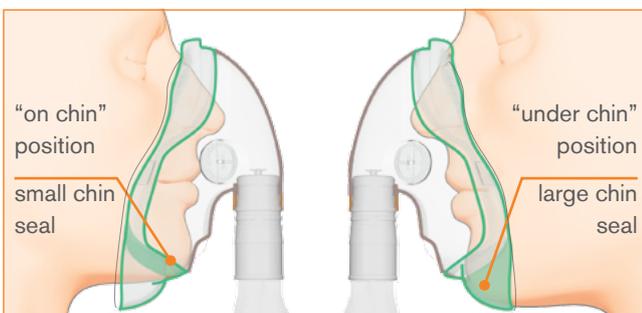

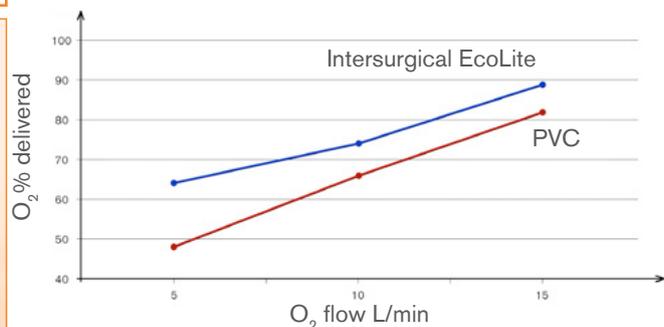

A choice of "under chin" or "on chin" positions

Provides a better fit on a wider range of patient face shapes

Improved sealing

Higher oxygen concentrations

Intersurgical EcoLite compared to PVC high concentration masks

1181015	Intersurgical EcoLite, adult, high concentration oxygen mask with tube	2.1m	24

Adult tracheostomy mask

- The quick release elastic system ensures that the adult tracheostomy mask can be removed and refitted easily, simplifying hygiene procedures
- 60% lighter than a PVC mask, more comfortable for the patient
- 82% reduction in environmental impact

The Intersurgical EcoLite™ tracheostomy mask is high quality, lightweight mask with a quick-release elastic for ease of use.

1200050	Intersurgical EcoLite, adult, tracheostomy mask	30

Paediatric oxygen and aerosol masks

We also provide a range of paediatric Intersurgical EcoLite™ options.

- The shape and position of the exhalation ports have been designed to minimise the amount of rebreathed carbon dioxide
- 50% lighter than a PVC mask, which is more comfortable for the patient
- 59% reduction in environmental impact

Soft face seal

For improved patient comfort

A choice of “under chin” or “on-chin” positions

Provides a better fit on a wider range of patient face shapes

Incurved nose seal

Improving the fit and eliminating the need for a separate nose clip. Designed to prevent oxygen or aerosolised drugs entering the patient's eyes

The material forming the body of the mask is clear, permitting visualisation of the patient's nose and lips. It is also rigid enough to maintain the mask's shape during transportation and use

Paediatric medium concentration oxygen mask

The Intersurgical EcoLite is the lightest and most comfortable paediatric mask available.
